## **DETAILED ACTION**

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

**1. Claims 1-8 and 11-21 are allowed.**

Claims 1 and 17 have been similarly amended to include language that indicates that the processor performs tasks other than processing said audio signals from the environment during a second portion of operation in a power-saving state. Shennib sets forth a transparent program that simulates the effect of not wearing a hearing aid to overcome the occlusion effects of wearing a disabled hearing aid during periods of disuse, e.g. sleep. In contrast to the claim language, this transparent program actually processes said audio signals that are processed during the normal "sound-processing state." Thus, claims 1 and 17 are allowable over the cited prior art.

**Claims 2-8, 11-16 and 18-21** depend variously on claims 1 and 17, and thus are allowable for at least the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
